## INDUSTRIAL VISIT

विश्व अंतरिक्ष सप्ताह  
**World Space Week**  
**OPEN HOUSE**

अक्तूबर / OCTOBER 9-10, 2019

VSSC . LPSC . IISU  
Thiruvananthapuram

World Space Week 2019  
VSSC . LPSC . IISU  
Thiruvananthapuram

PASS NO ..... 1909325 ..... October, 2019

9 10

Dear Jais John,

Your request to visit space museum has been APPROVED.

Visit ID: 1909325

Date of visit :09-10-2019 9:30 AM

Nos. of Visitors :47

### Guidelines

- Printed entry pass can be obtained either from the Public Relations Office, VSSC near Veli Church or from the security gate at Canal gate, near Stationkadavu at the northern boundary of the VSSC campus. For this purpose the group leader should furnish the details of the assigned request ID along with the registered proof of identity at the above identified points. On verification, the pass will be printed and issued. The pass will be valid only for the date of issue.
- Limited number of vehicles will be allowed up to Space Museum. Group leader should provide the details of the vehicle while seeking entry pass.
- Entry will be allowed only from the Canal gate.
- Mobile phone, camera, CD, USB drive, floppy or other electronic gadgets are strictly prohibited inside the campus.
- A visit to the space museum will take more than an hour. There will be regular film shows on all days. Special shows will be arranged for groups with not less than 40 visitors, on request.
- Sounding rockets are generally launched from TERLS on every third Wednesday at 11:45 hours (subject to change for technical reasons) for scientific purposes. Those who wish to witness the launch should be present at space museum before 10:30 hrs.
- VSSC will not be responsible for any accident to the visitors or for any loss/damage to their belongings during their visit to VSSC or to any of its facilities, or while launching rockets.

*For any further queries, please contact public Relations : 0471-2564292, 2565649*

Regards,

Public Relations Officer, VSSC

# M.E.S COLLEGE ERUMELY

(Approved by Govt. of Kerala & Affiliated to the Mahatma Gandhi University)

Minority Institution Certified by National Minority Education Commission

04-10-2019

## To Whom So Ever It May Concern

This is to certify that the following candidates are bonafide students of our college studying First Final semester Electronics course during the academic year B.Sc First Year (2019-2022 batch), B.Sc Second Year (2017-2020 batch), M.Sc First Year (2019-2021 batch), M.Sc Second Year (2018-2020 batch). The students of our college are proposed for Industrial visit on 09th October 2019 to VIKRAM SARABAI SPACE CENTRE (VSSC), Thumba Trivandrum. The team includes 42 students and accompanied them by 5 faculty members of the college are as follows.

List of Students and Faculty Members are given below

### FACULTY - IN - CHARGE

1. Mrs.Jishamol C K (HOD, Dept of Electronics)
2. Mrs.Sumayya P A (Lecturer, Dept of Electronics)
3. Mr.Jaise John (Guest Lecturer, Dept of Electronics)
4. Ms.Chithra B (Guest Lecturer, Dept of Electronics)
5. Mr.Anandhu M Shaji (Guest Lecturer, Dept of Electronics)

### LIST OF STUDENT

# DEPARTMENT OF ELECTRONICS

## REPORT OF INDUSTRIAL VISIT

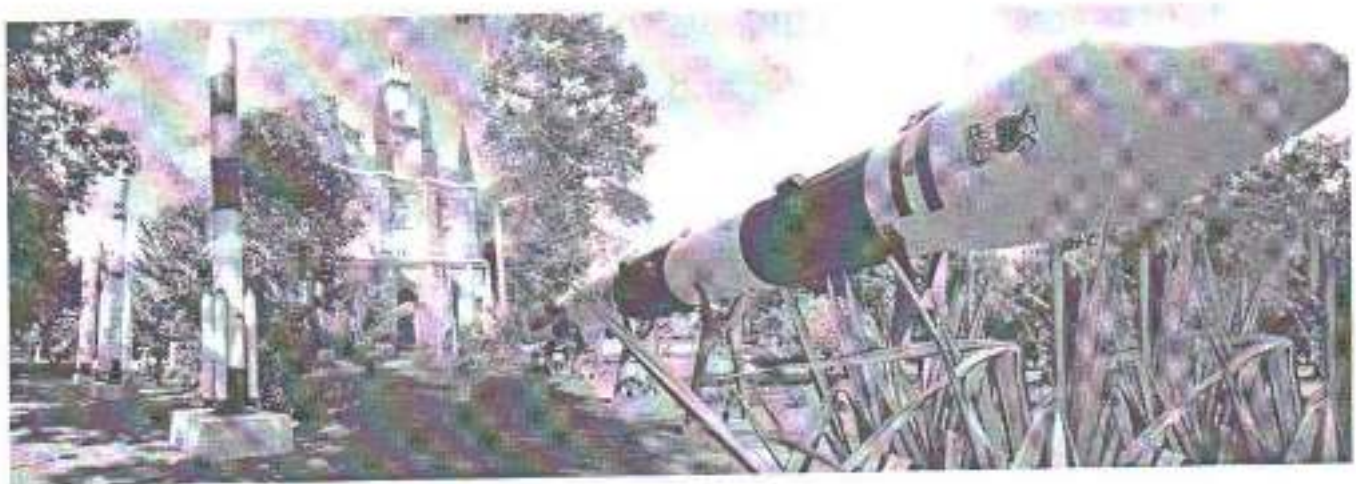

Fig: VSSC

Industrial visit is considered as one of the tactical methods of teaching. It lets students to know things practically through interaction, working methods and employment practices. It gives exposure to students about practical working environment and get awareness about new technologies. Industrial visit is useful to get information related to the practical aspects of the course which cannot be visualized in lectures.

With an aim to go beyond academics, the department of Electronics arranged a visit to Vikram Sarabhai Space Centre (VSSC) on 9<sup>th</sup> October 2019. VSSC is a major space research centre of the Indian Space Research Organization (ISRO), focusing on rocket and space vehicles for India's satellite programme. It is located in Thiruvananthapuram. The centre had its beginnings as the Thumba Equatorial Rocket Launching Station (TERLS) in 1962. It was renamed in honor of Dr Vikram Sarabhai, often regarded as the father of the Indian Space Programme.

VSSC is one of the main research and development establishments within ISRO. VSSC mainly concentrated on the development of sounding rockets, SLV, ASLV, PSLV, GSLV and GSLV III families of launch vehicles.

World space week is an important international event celebrated from October 4<sup>th</sup> to 10<sup>th</sup> of every year. This year during space week events and educational programmes with special focus on space are arranged within and outside VSSC based on the theme 'THE MOON: GATEWAY TO THE STARS'. VSSC Liquid Propulsion Centre arranged different programmes like lecture at schools, open house programme, student's workshop, citizen familiarization programme etc. The open house programme was conducted on 9<sup>th</sup> and 10<sup>th</sup> October 2019. As a part of this programme, the public was allowed to enter the campus to witness the RH-200 rocket launch and to visit the space museum. This visit requires online registration through their website. Names of 42 students and 5 faculty members from the department of Electronics were registered for 9<sup>th</sup> October 2019, Wednesday.

**Fig: VSSC space museum**

As planned earlier we were departed from the college at 4 am and reached VSSC campus through canal side gate at 9 am. The security officer welcomed the visitors and guided for the entry in VSSC museum. We collected our pass from the office, kept our mobile phones inside the bus and proceeded for the security check. After the security check they took us to the museum in their bus. So many

school-college students from Kerala and other states were present there inside the museum.

A trip to the space museum will make us feel proud and wonder at the achievements in the design and development of launch vehicle technology. This museum will give us a clear picture of India's space missions from the beginning stage. The space centre was a church initially and later on it was converted into present museum with high tech artifacts and visuals, speak the tell tales on the birth of Indian space programme.

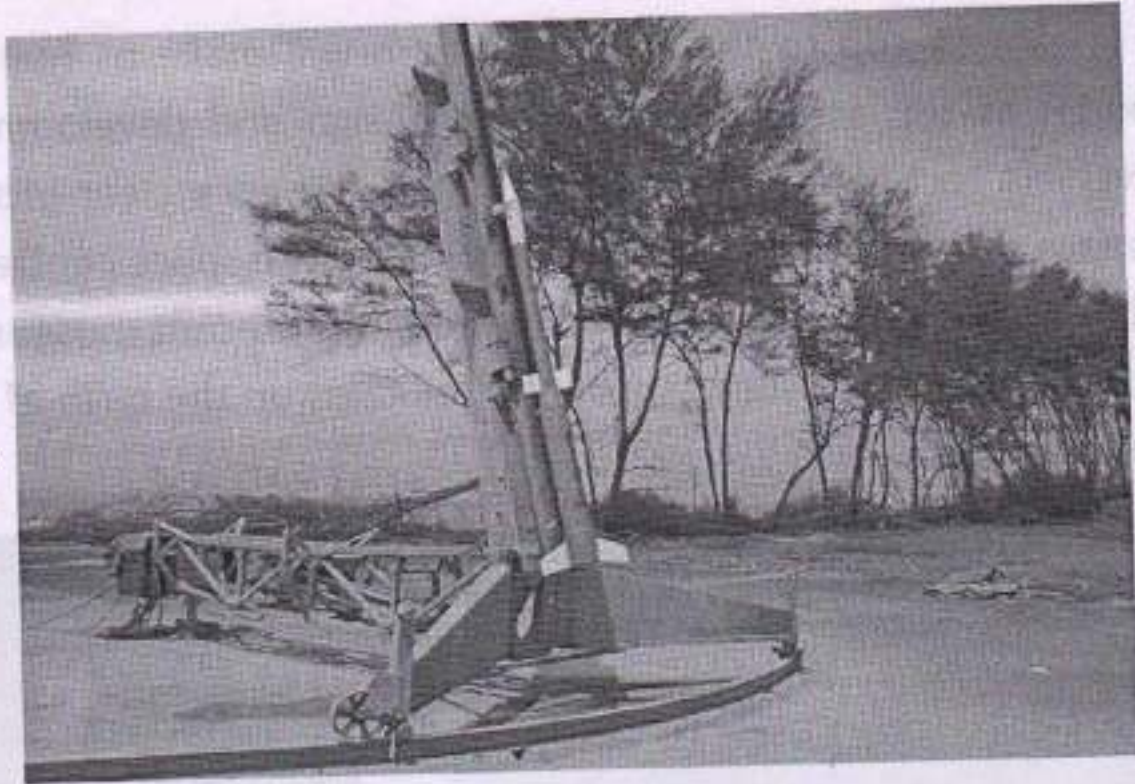

**Fig: Inside the museum**

The museum has full scale model of PSLV and PSLV heat shield on its premises. The museum also has scaled down models of GSLV, GSLV MK- III and ATV. Space museum provides a tell tale account of the Indian Space Programme from its infancy. This story is displayed in 6 sections, comprising of history, education, technology, applications, global and the future. The museum attracts regular crowds including students and the public. Expert persons are there to explain the history and working of each section and answer all our queries. Staffs are excellently informed and museum is beautifully maintained. This museum creates awareness about the space missions

and could be a lot more inspiring for students to join ISRO. The museum offers a glimpse into India's glorious space research history.

**Fig: Sounding rocket**

After the museum visit, they took us to the sea side for watching the sounding rocket launch for scientific purposes. To aware the public on space related activities, visitors are allowed to witness the launch monthly on every third Wednesday. A crowd of space lovers were reached the gallery to witness the launch. Count down started, our eyes widened and at 11:45am sharp the rocket was launched. It was in the air ..... few seconds..... a crackling sound was there..... the rocket grew smaller and smaller, and, all of a sudden it was disappeared in the sky. Every single person in there was really excited and thrilled. It was a wonderful and unforgettable experience for us to witness an object leave the earth for outer space.

**Fig: The crowd witnessing the sounding rocket launching**

VSSC is a must visit place for space lovers to witness India's journey in space programme. It not only exhibits but also demonstrates the brilliant and thrilling developments of space technologies in India. We feel proud about the achievements of our scientists and certainly it was one of the life time experiences for us.

## Indian Business Museum

IIM Kozhikode embarked on a programme to create a museum of Indian Business History in 2010 which is believed to be the first of its kind. The museum will feature the contributions of India's business leaders, the history of trade, commerce, business and industries in India. The museum spanning 2300 sq.ft features a large model of the uru, an ancient ship which was used for trade and commerce between Indian and the rest of the world, and pavilions by Indian companies like Tata, Godrej, Reliance, State Bank of India and Infosys.

## Laboratory for Innovation, Venturing and Entrepreneurship (LIVE)

Laboratory for innovation venturing and Entrepreneurship (LIVE or IIMK LIVE) is a business incubator and entrepreneurship development centre of the institute. The centre was setup in June 2016 with the support of Department of science and Technology, Government of India and acts as the on campus Technology Business incubators under NSTEDB of the Indian government .It aim at contributing to the country's economic goals through innovation led entrepreneurship.

The centre located in IIMK campus is involved in promoting and supporting innovation-led entrepreneurship in India. It runs an incubation program for early stage Startups called Business incubation program since 2017. The incubation program is open to the students community and alumni of the Institute. It also invites interest from startups from greater community who are not part of the Institute's programs. The centre and the program benefits from the faculty experts, Institute alumni and partner organisation. Apart from co-working facility, mentoring, investors network, training and workshopes. It provides seed funding under various schemes of Department of science and Technology and ministry of micro , small and medium enterprises.

## CONCLUSION

Through this I V we get more knowledge about the startups, from the session of IIM Kozhikode. Also understood the manufacturing process of footwear from VKC. And Kerala Agricultural University provide us with more information regarding new ideas and farming techniques . Hence this I V was very effective and it helped to improve my knowledge in each of the areas. So finally I would like to convey my thanks to all my Mentors, faculties in IIMK,KAU and VKC, parents, friends... those who helped me to complete this I V.

# Doddabetta Tea Factory And the Tea Museum

## INDUSTRIAL VISIT CERTIFICATE

This is to certify that students of MJ-S. COLLEGE, ERUMELY

BBA STUDENTS (2009-2012) BATCH

visited The Doddabetta Tea Factory and the Tea Museum on 29/09/2011

They were given first hand information of the entire tea history and processing.

They participated in a guided factory tour in which the history of tea and the different stages of tea processing like withering, crushing, cutting / tearing / curling (CTC), shaping, fermentation, drying, cleaning and grading was explained to them. The students evinced keen interest in knowing all aspects about tea manufacture.

## Industrial Visit Report

---

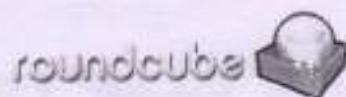

### Activities

According to the route and time plan two busses were departed and reached the Keltron at 10:00 am. The visit lasted for 2 hours. A good presentation was given by the firm's senior supervisor. He explained about their product, power generator, its total capacity, users of their product. 1 1/2 hours were spent to see their materials, small chips, resistors like assembling goods. Around 30 minutes were spent to visit their assembling units. After the site visit 30 minutes discussion section covered about their cost factors, accounting procedures, Quality management system adopted by the firm. Finally the guide explained about other branches of Keltron and products.

### Students Feedback about the Industrial visit

1. It is very much helpful to know the production process of the industry
2. Helpful to analyse cost factors and accounting procedures
3. Very good to know the Quality management system
4. Helps to know about Keltrone and their products
5. Helps to analyse Assembling session of a production unit

### About Keltron

Keltron Corporation is a leading manufacturer of fire and security alarm monitoring solutions that enable organizations and companies to provide dependable, scalable, life safety event response services. Keltron has maintained a reputation for innovation and the reliability and high performance of its fire and security systems and products. Our life safety event management systems protect lives in colleges and university campuses, healthcare centers, industrial plants, commercial and cultural facilities, government and military complexes and municipalities worldwide. Keltron's management team brings over one hundred years of experience in the fire and security alarm monitoring industry. Our team's unique understanding of market requirements and technology and long-term relationship with Underwriters Laboratories and the National Fire Protection Association enables Keltron to provide solutions that meet the highest standards in the industry and are made in the USA. Our technically proficient sales and services teams approach each project with a can-do attitude and a solid knowledge base. Keltron's unique ability to interface to an unparalleled variety of legacy fire alarm systems reduces our customers' capital expense and increases ROI. Keltron's corporate offices are located near Boston in Waltham, Massachusetts, the heart of the Massachusetts technology sector. Keltron has been a source of innovation for the fire and life safety industry for over a half century. Since Keltron's introduction of digital printers more than 50 years ago by our MIT and Northeastern University-educated founders, we have continued to develop and manufacture the hardware, software and services required to meet the needs of our customers and the fire and life safety market.

Among some of Keltron's "firsts" are the developments of:

- State-of-the-art suite of dispatching, monitoring and reporting software, specifically designed for the fire and life safety market
- UL listed Ethernet (IP) signaling system
- Keltron DataTap™ for reliable wireless communication of point ID alarm data
- Distributed multiplexers
- Serial digital alarm communicator transmitter (SDACT)
- Direct connect monitoring of alarm signals over incompatible voice grade, fiber optic or microwave-based leased telephone lines

## Industrial Visit Report

---

- Direct wire, reverse polarity, digital transmitters and multiplex inputs
- A system that combines annunciator panel features with digital printout
- Multiplexed, data gathering panel that combines with visual annunciators
- A system for coded signals that decodes, displays, and prints outputs of mechanically coded signals produced by fire and security alarm systems
- A printer system to monitor contact closures and print a programmable four-digit number plus an identifier code of four alpha characters

Over the years, Keltron Corporation has continuously enhanced and updated our systems to incorporate beneficial changes in technology. The addition of microprocessors and minicomputers as well as the development of highly specific software programs enable Keltron to offer the highest quality, most reliable life safety event management systems available today.

- **Operational Since:** 1967
  - **Manufacturing:** Aerospace Electronics, Security and Surveillance System, Intelligent Traffic Management Systems, Strategic Electronics, IT Solutions, Process control and Instrumentation, Power Electronics etc
  - **Catering To:** Indonesia, Philippines and Malaysia
  - **Address:** Corporate office, Keltron House, Trivandrum 695033

## Industrial Visit Report

---

### Basic Purpose of Industrial Visit

- 1) To interact the students with actual industry personals.
- 2) To make them aware of the industrial procedures required to enter in company.
- 3) To experience the working environment in industry and visualize the all the important Departments in the Industry.
- 4) Interaction of students with the peoples of all important departments.
- 5) To prepare the students for the selection of carrier path in different departments of industry

### Strength behind the visit

Prof. Maheen N.M, Principal has approved the industrial visit and encouraged the committee for organizing similar kind of activities for the benefit of students.

Prof. Shamla Beegom N.S, Vice-Principal (Academic) and Head in Commerce (PG) has suggested that students of M.Com (Finance, Marketing and Banking) should visit the industries to experience the actual working environment and the processes.

From the Kerala Agricultural University (KAU) we understood about different kinds of plants, its species and their importance. Also we visit the bio compost plants in KAU.
