## ANNUAL REPORT 2016-17

### INTRODUCTION

Preservation of nature is the utmost aim of each and every individual. A pollution free environment is essential for all living beings. The advancement of science and technology made our young generation least concerned about nature. Nature club was formed to sensitise, motivate and educate students about environment and conservation. The students should understand the value of nature and different environmental problems.

Nature club and Bhoomitra Sena Clubs are the convergence of nature lovers, monitor and operate the environmental and sustainable activities in the society, starting from college campus with the novel objectives of facilitating the skill development for environmental protection. These clubs were started with an aim for creating social awareness and enhancing student's understanding about the inter-dependability of human beings and our environment through various activities at MES College Erumely. To sensitize and mobilize students' participation for preservation and conservation of environment, Nature club & Bhoomitra Sena Club organizes multiple competitions that bring students closer to nature and makes them realize the importance of an eco-friendly environment. Students are encouraged to participate in such activities whereby the need to conserve nature's bounty is imbibed in them naturally. These clubs believe that nature teaches life's lessons in its own subtle ways and enables our youth to share their responsibilities in preserving a healthy environment and to take steps to avoid environmental degradation in their individual capacity as well as in a group. The Club provides awareness on global environmental challenges and developing means to overcome the problems. Conducting workshops, study tours and plantation programmes motivate the students to value the environment. The Nature Club and Bhoomitra Sena Club conducts various activities such as Observing world ozone day, Environmental day, labeling of trees, throughout the year.

### World Environment Day Celebration 2016

Nature and Bhoomitra Sena Club, MES College Erumely had organized Environmental Day Celebration and Tree Distribution on 6<sup>th</sup> June 2016. The day is celebrated annually to create awareness and action for protection of the environment. The 2016 WED was organized on the theme "Go Wild for Life". It aims to reduce and prevent the illegal trade in wildlife. The club organized a celebration emphasizing the importance of saving the environment and promoting sustainable development. Awareness was generated through the activities about having an eco-friendly campus. The club also initiated to distribute trees to the students and faculties of the college.

### Afforestation Activities in the Campus

In the academic year 2016-2017, the Nature and Bhoomitra Sena Club had conducted many afforestation activities in the campus. The main focus of the activity was to create a Green Campus. It helps to develop and restore long lost ecosystems. The faculties and members had shown an active participation in the activity by planting different kinds of tree saplings in the campus. It also promotes the importance of having an eco-friendly environment. The club members collected various kinds of fruit trees and planted them at different spots of the college.
