

MES COLLEGE ERUMELY

Social Learning and Innovative Programme (SLIP)

1. GREEN INNOVATION

The institution has to work out the time bound strategies to implement green campus initiatives .These strategies need to be incorporated into the institutional planning and budgeting processes with the aim of developing a clean and green campus. The keynote objective of the College is to enable an active life and participate in and exert influence over society and their everyday lives.The institution has an **eco-friendly campus** and **Environmental Policy** created from continuous efforts of day -to- day initiatives under Green **Innovation**. The whole college contributing their part in this programme and experiencing different phases of Green Initiatives both from the campus and beyond the campus. “Thana” is a responsible Eco Tourism project initiated independently by the NSS unit of MES College at Erumely, telling the success story of the systemic transformation of a roadside dumping yard into a mind catching Eco Park.

2. GENDER SENSATION

Gender Equity and related Programmes are the part of daily routine activities of the College and are implemented through different Gender Equity Promotion programmes. The institution has a **Gender Equity Policy**. The College treats all the Students irrespective of gender and Specific Programmes are organized to make them aware of Gender Equity. Rather than Gender, all of the students are encouraged to take part in all activities, whether it is Curricular or Co-curricular. We make awareness of our students the need to subvert the gender stereotypes and patriarchal system through different programmes and academic activities. Through academic activities and discussions the students are urged to view sexual minorities as a part of our Society.

3. FLOOD RELIEF

Community organizations and movements in Kerala are very strong. It is clearly seen from the role played by religious and community organizations in flood relief. They were at the forefront of helping all sections of the people irrespective of caste or creed. From time to time, they have delivered food and clothing to relief camps, and the economically strong classes of the respective communities have come forward for the same. The efforts taken by all Christian, Muslim and Hindu religious leaders during the flood relief are unprecedented. Each of the organizations, individuals and communities contributed corers of rupees directly to the Chief Minister's Disaster Relief Fund. In this regard, MES and its institutions have unequivocally exercised its historic mandate.

4. COVID RELATED ACTIVITIES

Covid Related Activities includes Sandha Sena Registration, Proper Bus Service facility for Medical Workers, Awareness Activities, Digital Surveillance, Quarantine Checking, Food and Medicines delivery to Covid Patients, Special Duty in police Station, Help desk, Information Centre, Webinars, Mask Making Campaign etc. The Community Engaged Program was introduced to the community people through posters describing the services provided by the teams and where also given contact members numbers of the team. The students could identify the needs of the beneficiaries and connect them to the proper stakeholders who can provide them the needed services. The program was completely done in online mode. Through telephonic conversations, and online meetings, the students could engage with the beneficiaries. Awareness posters and videos were created on topics related to Covid-19 and shared among the beneficiaries through the stakeholders of the Panchayat. By the end of the Program, each team could organize a community event addressing different topics in relation to Covid-19. The teams could ensure the participation of both the stakeholders and the beneficiaries. The Covid has given the best opportunity to get involved with the community people, to understand their needs during the pandemic and could provide the necessary services.

5. ETHICAL PRACTICE

Every institution should conserve a moral profile to achieve credibility and build a good institutional impression. The main aim of this practice is to sustain the code of conduct of the institution. The ethical sustainability of an educational institution can't be ignored because it has a crucial influence on society. The institution also organizes different programs to nurture human values among students. IPR Plays an important role nowadays. Intellectual property rights (IPR) are the rights given to persons over the creations of their minds: inventions, literary and artistic works, and symbols, names and images used in commerce. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time. The IPR Cell of the MES College Erumely was constituted on June 5th 2019. The IPR Cell is functioning under Innovations and Research Development Council. The aim of IPR Cell is to create awareness and provide guidance to faculty members, research scholars and students on intellectual property rights. The cell creates an ethical environment in the academics for the development of Intellectual Property

6. COMMUNAL HARMONY

The college acts as a pivot for enriching the cultural and social diversity through admitting students from different communities and engaging them in academic and non academic activities. The college follows the motto of inclusiveness by uniting the students from different realms of the society. College has a **Motto of inclusiveness and tolerance**. The institution accepts all sorts of cultural and social diversities. The college follows the system of equality, Communal Harmony and abiding tolerance. It expands the sense of belonging and spiritual mentality and ensures tolerance and harmony towards cultural diversity.

Conveying the message of oneness through celebrating different events: The College celebrates all festivals irrespective of all festivals irrespective of committees or religious .Regional, cultural or religious differences have never been a barrier for celebrating the festivals. The institution celebrated the festivals like Onam, Christmas, Ramadan, Holy, Iftar sangamam, Kerala Piravi and by organizing different programmes in arts festivals.

7. SOCIAL RESPONSIBILITY

The institution organizes various Extension Activities for enhancing Social responsibilities. The College Council initiates various activities which have a sense of inculcating social values and responsibilities among students. Various Directorates, Clubs, Forums and Cells conduct various activities promoting social learning and innovation. Department conducts various activities including extension programs under the broader framework of Social Learning and Innovation Program. NSS also contributed well in this framework with a lot of creative and innovative activities. **Outreaching Program** of rural areas help students undergo experiential learning with social commitment through field action and **Extension Activities** experiencing the rural realities.

8. INNOVATIVE ECOSYSTEM

Innovation Ecosystem: Innovation can be termed as the practical implementation of ideas to improve the existing condition. It is the result of systemic interactive learning processes. It equips the students with the ability to think out of the box and to create innovative ideas. It helps them to stay relevant in the competitive market. Entrepreneurship is the creation or extraction of value. In order to create such capacities in students, an entrepreneur club is functioning systematically in the college, which conducts seminars on different topics and a variety of such programs to develop entrepreneurship among the students which is an essential skill in today's job market. It prepares the students to be responsible and enterprising and helps them to develop knowledge, skills and attitudes to achieve their goals. As entrepreneurship and innovation are the key stimulants of economic growth, the students equipped with such skills turn out to be contributors in our economic growth, which is much appreciated by our society. They can create many job opportunities and can provide employment to different sections in our society and thereby improving their social mobility. Technological innovation is considered as a major source of economic growth. The students are encouraged to use technology in an advanced way and many of the academic activities are done using such platforms. The faculty members ensure that every student is getting an opportunity to develop such skills during their college life. Students are organizing most of the programmes that are conducted in the college as a baby steps to learn planning and organizing. The college library has a vast collection of books, articles and journals related to entrepreneurship and innovation and the faculty members make sure that the students are using these resources properly. The college is tactful in conducting seminars and discussions on these topics using eminent persons in the respective fields. Students are provided with many opportunities to work with such distinguished persons and also to explore and exploit their knowledge for the betterment of our society. Exposure to such outstanding persons inculcates students with many innovative ideas and methods to develop them into something useful like setting up a business.
