12. MASK MAKING

The use of masks is part of a comprehensive package of the prevention and control measures that can limit the spread of certain respiratory viral diseases, including COVID-19. In this pandemic situation, the Entrepreneurship development club of MES College Erumely, took an initiative to make and distribute Masks to college students and the public. The work is coordinated by the Stitching unit of ED club. Ms. Jayalekshmi and Ms. Gayathri from MSW (PG Department) work as mentors. They taught the ED club member's, how to Make and tailored the masks. 435 masks were stitched by the students. Ms. Safeena KM (ED Club coordinator) organised all the work behind the Mask making Programme.

13. WEBINARS

National webinar on “Impact of Covid – 19 on Indian Economy

A Webinar on Impact of Covid 19 On Indian Economy on 12th June

The National webinar on “Impact of Covid – 19 on Indian Economy “for Academicians, Research Scholars, Faculty members & Students of different disciplines was conducted on 12/06/2020 by the Economics Department in Association with IQAC, MES College, Erumely. The webinar commenced with recorded College prayer followed by a welcome from Dr.RakhiChandresekhar, HOD of Dept of Economics. In her speech, she highlighted the pandemic situation of Covid-19. In the Introductory address Mrs.RamadeviA , Co- coordinator of IQAC and Vice Principal talks about the importance of these webinars in recent times. In the Presidential address, Mr. Maheen M N, highlighted the impact of Covid – 19 on the different sectors.Mrs. Mubeen Ghafoor (Programme Co-ordinator) introduced the chief Guest and the inauguration was done by honourable Chief Guest Dr.C.Muthuraja. Totally 350 participants including Academicians, Research Scholars, Faculty members and students from different disciplines throughout the nation participated in the programme.

The Technical session “Impact of Covid-19 on Indian Economy “was delivered by the resource person Dr.C .Muthuraja, HOD, PG & Research Dept. of Economics, American College, Madurai. He explained the impact of Covid-19 on the Indian Economy. The webinar began with the pandemic situation of Covid-19. He explained the impact of Covid-19 on different sectors like agriculture, Banking, Households, industrial, Service etc.... Due to Covid-19, Home buyers are likely to postpone their property purchase decisions as they wait for clarity on job security. The Coronavirus has resulted in the closure of malls, retail outlets and entertainment venues. This could put future commercial real estate deals on hold and delays in supply of construction materials and shortage of labour could further push delivery timelines of ongoing projects. Companies worldwide have announced remote working for employees, to contain the spread of Covid-19. Consequently, office Utilisation rates may fall, as remote working increases.

Webinar on Covid-19 pandemic explosion in India

The UBA of MES College Erumely in association with National Quality Assurance Cell conducted a national webinar on the topic " Covid-19 pandemic explosion in India". The ongoing COVID-19 pandemic, India has witnessed a massive surge of cases in the past months. As of April 30, 33 610 confirmed cases and 1075 deaths have been reported from 32 states/union territories in India.

Apart from the nationwide lockdown, India has increased its testing rate and has markedly strengthened the health care sector to combat COVID-19. With India's population of more than 1.3 billion people at a significant population density compared with the rest of the world, the lack of universal access to clean water and overall poor socioeconomic status, all have posed a major challenge to India's fight against COVID-19. Failure to contain the pandemic in India could have disastrous consequences with widespread cases and thousands of deaths that could easily overwhelm the health care infrastructure. Unabated spread of the pandemic could make India the next COVID-19 hotspot; hence the World Health Organization has recently stated that the "future of the pandemic will depend on how India handles it." So MES College Erumely, initiated a webinar on the present scenario of the pandemic in India and the myriad challenges being faced by the country in its fight against COVID-19.

The webinar was conducted on 15th June 2020 from 4 to 6 pm. The resource person of the webinar was Colonel Isenhover. He took a fruitful class and a detailed understanding of the current Covid scenario was conveyed to the students. The session was successful.

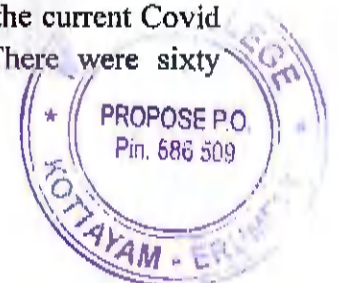

Webinar on Covid-19 impact on Agriculture: Problems and Opportunities

The UBA of MES College Erumely in association with National Quality Assurance Cell conducted a national webinar on the topic " Covid-19 impact on Agriculture: Problems and Opportunities ". The ongoing COVID-19 pandemic, India has witnessed a massive surge of cases in the past months. As of April 30, 33 610 confirmed cases and 1075 deaths have been reported from 32 states/union territories in India.

COVID-19 pandemic has disrupted the Indian agricultural system extensively. Nevertheless, the recent quarterly GDP estimates post-COVID scenario showcase robustness and resilience in Indian agriculture, the only sector to register a positive growth of 3.4% during the financial year 2020–2021. At the same time, the immediate past quarter growth was estimated at 5.9% witnessing a decline by 2.5% point. In this context, we aim to synthesize the early evidence of the COVID-19 impact on the Indian agricultural system viz., production, marketing and consumption followed by a set of potential strategies to recover and prosper post-pandemic. Survey findings indicate that the pandemic has affected production and marketing through labor and logistical constraints, while the negative income shock restricted access to markets and increased prices of food commodities affecting the consumption pattern.

The pandemic wreaked substantial physical, social, economic and emotional havoc on all the stakeholders of the Indian agricultural system. Seizing the crisis as an opportunity, the state announced a raft of measures and long-pending reforms. We propose a 10-point strategy ranging from social safety nets, family farming, monetizing buffer stock, staggered procurement to secondary agriculture to revive and prosper post-pandemic. The college conducted a webinar based on the scenario in Agriculture.

The webinar was conducted on 16th July 2020 from 5:30 onwards. The resource person of the webinar was Jiju P Alex, Director Kerala Agricultural University and also Extension regional coordinator, UBA. He took a fruitful class and a detailed understanding of the current Covid scenario was conveyed to the students. The session was successful. There were sixty participants take part in this session.

15.COMMUNITY ENGAGEMENT PROGRAMME

PG Department of Social Work, MES College Erumely, jointly coordinated with MGNCRE SAP Ministry of Education, Government of India conducted a Community Engagement Program at Vellavoor Grama Panchayat. Community Engagement in Higher Education is where sustainable networks, partnerships, communication media, and activities between Higher Education Institutions and communities are fostered at various levels. There is an inevitable and symbolic relationship that exists between communities and Higher Education Institutions. The students were divided into five teams, giving five different areas of activities. The 20 days activities were started on 6th of July 2021. The students were assigned to provide

different services and connect the beneficiaries to the stakeholders. The target group behind this program was Covid-19 affected patients, families, their children and old age people.

The Community Program was introduced to the community people through posters describing the services provided by the teams and where also given contact numbers of the team members. The students could identify the needs of the beneficiaries and connect them to the proper stakeholders who can provide them the needed services. The program was completely done in online mode. Through telephonic conversations, and online meetings, the students could engage with the beneficiaries. Awareness posters and videos were created on topics related to Covid-19 and shared among the beneficiaries through the stakeholders of the Panchayat. By the end of the Program, each team could organise a community event addressing different topics in relation to Covid-19. The teams could ensure the participation of both the stakeholders and the beneficiaries. The Community Engagement Program has given the best opportunity to get involved with the community people, to understand their needs during the pandemic and could provide the necessary services.

INTRODUCTION

The Community Intervention Program jointly with Vellavoor Grama Panchayat, in association with MGNCRE SAP, MINISTRY OF EDUCATION, GOVERNMENT OF INDIA, MES College Erumely conducted from 2021 July 6. The department of social work, MES College had 5 groups in different categories. Group: 1 Hospital Management Team with 5 members worked with the community in Vellavoor Grama Panchayat with the help of ASHA workers and CDS members in the Panchayat. Since the Team is based on Hospital Management, we analysed the problems faced by the community during the Covid 19 pandemic, with the help of ASHA workers, who had a great involvement in the recent times. We collected the data of Covid positive patients and helped the needy by reference to the help desk for different needs. As part of the team work we had to make posters on the base of Hospital management and circulated them to the Vellavoor community through the ASHA workers and CDS members. We analysed the problems faced by the community during the pandemic, most of the people were afraid about the pandemic and had doubts about the vaccine. What are the impacts of vaccination, why fever and some other health issues affect after the vaccination, is coronavirus affect the immunity system of the body where the major questions arises from the community. From these questions we had analysed the people in the Vellavoor community is mentally confused about the prevention and the vaccination. As a result team Hospital management conducted a webinar on the topic of "Vaccination and Mental Health" by the Community Counselor of Vellavoor panchayat, Mrs. Anupama C and the program was inaugurated by the vice president of Vellavoor grama panchayat, Mrs. Shinimol T C. The presidential addresses were handled by CDS Chairperson, Mrs. Ammini George. The program started from July 6, 2021 and ended with the Webinar conducted on 25 July 2021, 11 am to 12 pm.

OBJECTIVES

- To collect contacts of different stakeholders from Vellavoor Grama Panchayat.
- Gather information of the Covid positive cases.
- To enquire about the necessities for the needy.
- To create several brochures/posters & circulated
- Analyse the Covid prevention programs in Vellavoor Panchayat.
- To clear misconceptions about vaccination.

ACTIVITIES

- Make posters and circulated over Community.

- Collected data and information about Covid patients in Panchayat through telephonic interviews with Asha Workers, CDS Members.
- Refer the needy to the help desk.
- Conduct a webinar on the topic of “Vaccination and Mental Health”.
- Contacted Asha workers, CDS and members in the Panchayat and circulated the information of the Community Organization.

INTRODUCTION

From 6th July 2021, MGNCRE SAP MINISTRY OF EDUCATION AND GOVT OF INDIA and MES College Erumely conducted a community program centred on Vellavoor Grama Panchayat. Vellavoor Grama Panchayat is located in Changanacherry block of Kottayam district in Kerala, India. There are a total of 13 wards in vellavoor. With the cooperation of the ward members and ASHA workers, the team 'KARUTHAL' was able to function as well and also we were able to conclude the activities by organising a training program on 25th July 2021. Different activities were carried out in 5 different groups. The non-hospital management team was a group of 5 of us under the guidance of faculty Mr. Al Ameen J. The community program, which ran from July 6 to 25, was well conducted. The broad aim of Fieldwork and other Academic work is to provide opportunities for the students to apply the knowledge learnt from the classroom situations and to plan, implement and evaluate these experiences while working with individuals, groups and Communities. We were able to make good use of the opportunity we had as Social Work students. We got the best exposure from the community setting.

OBJECTIVES

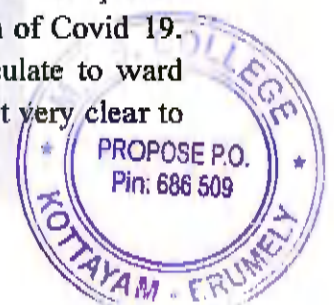

- To collect contact details of Stakeholders
- To collect the details of beneficiaries
- To provide essential food , grocery and helpline numbers
- To conduct a Community program (online training class)
- To create posters , pamphlets, and videos to aware people about covid 19

ACTIVITIES

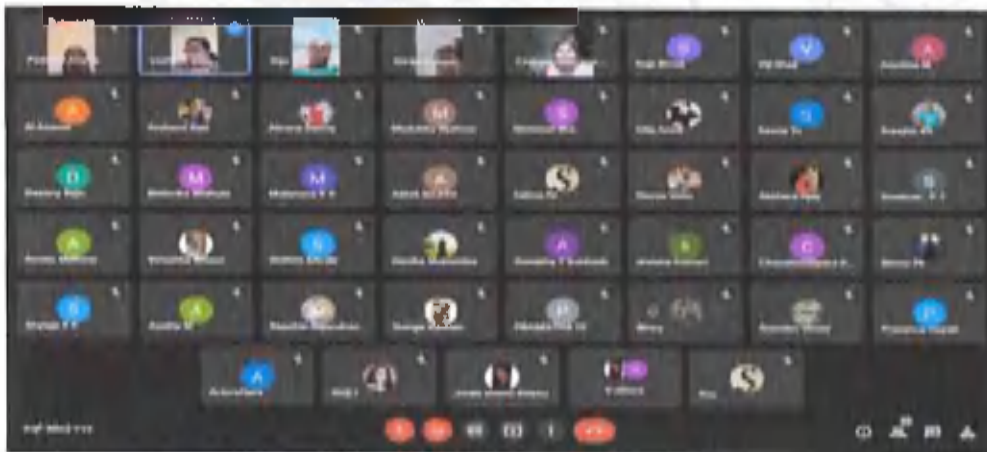

- Telephonic interview with ward members, ASHA workers, and other Stakeholders of Vellavoor Grama Panchayat
- Generated an awareness through social media
- Created pamphlets, Brochures and videos about covid 19
- Conducted a community intervention program based on the topic "Covid-19 and Nutrient Supply"

The activities are done day by day, by each member in the team. The activities were started on 6th July 2021.

As a part of Community intervention program conducted at Vellavoor Grama panchayat in Association with MGNCRE SAP Ministry of Higher Education, Government of India, the student social workers from team 2 Non Hospital management " Karuthal" The team was able to create pamphlets and Brochures .These posters and brochures helped to make the public aware of the importance of vaccination, and to aware people about prevention of Covid 19. Mainly we make the pamphlet and distribute through social media and circulate to ward members, Asha workers etc. Now vaccination is important in life. So making it very clear to the public is very relevant.

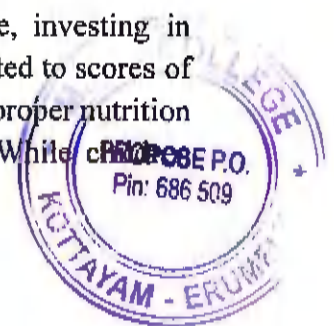

COMMUNITY PROGRAM

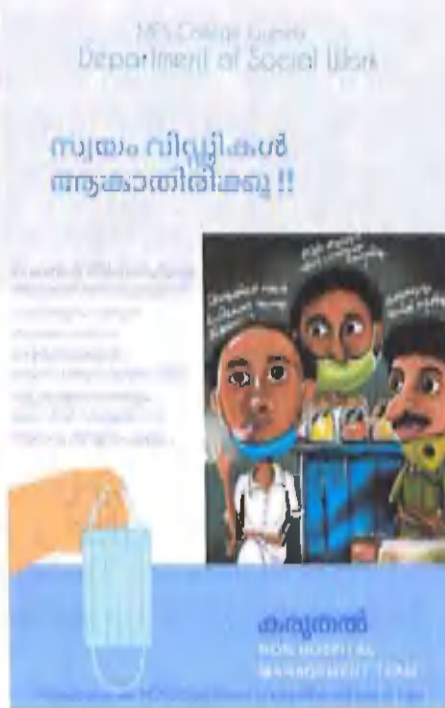

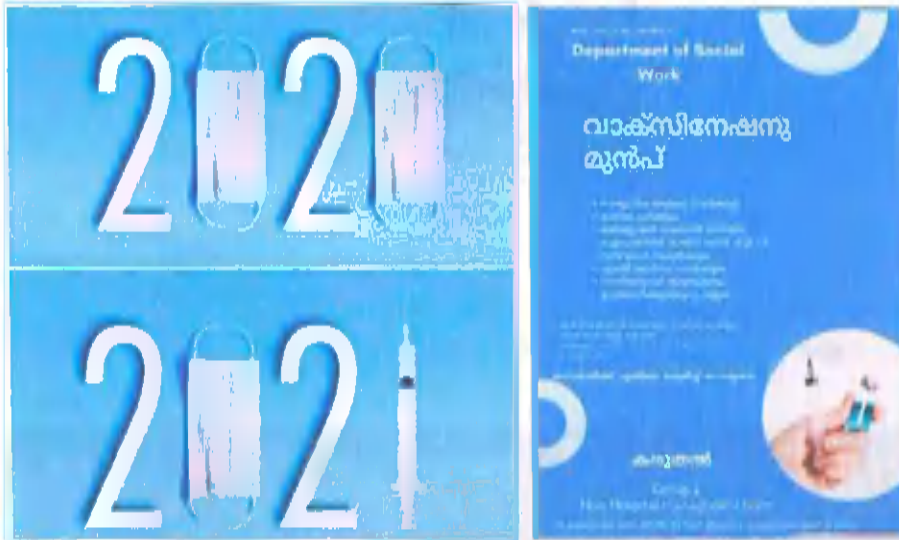

As part of Community intervention program conducted at Vellavoor Grama Panchayat in association with MGNCRE SAP Ministry of education, government of India, student social workers from Non Hospital Management team "Karuthal" planned to organise a training session for ICDS Anganwadi workers Based on the topic 'Covid and nutrition'. The session was coordinated with the guidance of ICDS supervisor Mrs. Rajeeshwari and the training session was conducted by CDPO of Vazhoor Mrs. Lakshmi on Sunday 25 July 2021, at 6 PM at Google meet. Bincy was the moderator and Navya got the opportunity to present the welcome speech.

Nutrition during this period led to so many implementations. Therefore, investing in nutrition is the key to secure a country's future generation. Food being distributed to scores of poor children and pregnant women through ICDS Anganwadis. It added that if proper nutrition was not supplied to them, they could see a spike in malnutrition burden. While conducting the session, it was observed that many children and pregnant women were not getting proper nutrition.

between three and six years, younger children, pregnant women and lactating or nursing mothers usually get nutritional food even in the pandemic Crisis. The children and other beneficiaries from low socio-economic backgrounds are largely dependent upon the one-time meal that bridges the protein and calories deficiency among them. So the topic plays a significant role in the community. CDPO Lakshmi handled the training program very well. The event started at 6pm and ended at 7pm. Total 58 people attended the training program. Anganwadi workers from Vellavoor Grama Panchayat and Nedumkunnam Panchayat also participated in the program. After classes 3 people asked questions. After Sridevi's vote of thanks the session ended.

INTRODUCTION

As part of a community engagement programme in association with MGNCRE SAP Ministry of Education and Government of India, a community intervention programme was conducted in Vellavoor Grama Panchayath, Kottayam district. This intervention programme was initiated by the PG department of social work of MES College Erumely as a 20 days programme started on 6th July 2021 and ended on 25th July 2021. The third team named Oppam with 6 members engaged in the community as a family support team.

OBJECTIVES

- To realise families by coming together, can open many routes of positive thinking and make changes that suits their lifestyle
- To aware the families the importance of good health during pandemic
- To provide tips for parents who are still not settled with navigating their work life balance and children unable to gear up with virtual learning
- To support the families suffers from financial problems.
- To aware about the importance of mental health in healthy family relationship

ACTIVITIES

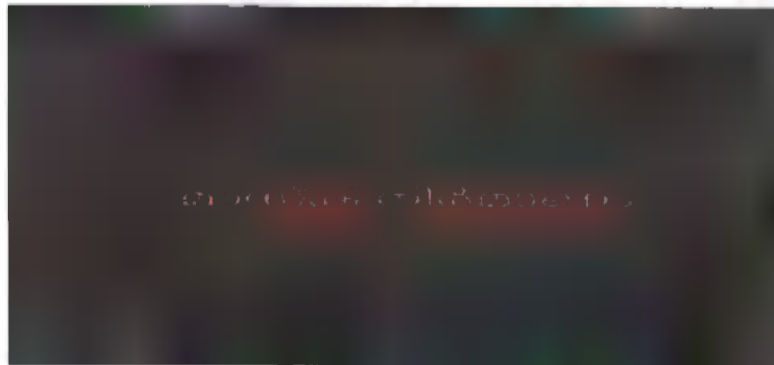

- Tele counseling for family and children.
- Through telecommunication each social work train communicates with the families to know about the current situation of the lifestyle.
- Awareness on Covid vaccine and help them to register for vaccination.
- Recreational activities for family members especially women and children through games and tasks.
- Awareness on post Covid mental and physical health.
- Awareness on women and child protection as in this pandemic time domestic violence cases have increased reporting.
- Talk with family and students to know their needs related to academics(eg : notebooks, mobile) and try to arrange their needs by coordinating with other stakeholders
- Community Programs (webinar).

This intervention programme was initiated by the family support team. This webinar was conducted along with the integration of Vellavoor Grama Panchayath. This webinar was taken by Tessa George, Junior Public Health Inspector on the topic "Covid : adhijeevanathinte kudumba paadangaal" at 4 pm of 25th July 2021. And the programme was inaugurated by the Vellavoor Grama panchayat vice president Mrs. Shinimol T.S .Family is the primary and most crucial institution at the time of crisis and emergency. The quantity and quality time with family is one of the important aspects of a relationship. So this opportunity is utilized to rekindle the healthy relationship we lost with family while fighting with the pandemic. The focused group is the people from Vellavoor Panchayat along with panchayath representatives and covid warriors.

8. Online workshop (on paper bag or mask making which will be a relief to the family suffers from financial problems) Community engagement programme the family support team creates

a mask making video for the families. The duration of the video is 3 minutes. The content of the video is cutting and stitching of masks. Without a sewing machine the mask can be easily made. This video will be a relief to the family who suffers from financial problems.

INTRODUCTION

MES College Erumely PG Department of Social Work in association with MGNCRE SAP conducted community intervention program in Vellavoor Grama Panchayat from 5th July 2021 to 25th July 2021. As part of the program social work trainees were divided into 5 teams : Medical supplies team, hospital management team, non-hospital management team, family support team and psychosocial support team.

The medical supplies Team which started its activity under the name 'AARDRAM' was looking forward to providing medical assistance to the people of vellavoor grama panchayat. Team was under the guidance of course teacher Al Ameen. Team started activity on 6th July 2021. The entire activity of the team was through online platforms. Vellavoor grama panchayat is located in Changanacherry block of Kottayam district in Kerala, India. There are a total of 13 wards in Vellavoor grama panchayat. The medical needs of the people in each ward were collected from the ward members and asha workers. With the cooperation of the ward members and asha workers the team 'AARDRAM' was able to function as well. The team 'AARDRAM' concluded the activities by organizing a webinar on 25th July 2021.

OBJECTIVES

- To generate awareness to the public on primary care of covid patients.
- To provide information about covid vaccination.
- Importance of health and Hygiene in covid situation
- Awareness on taking necessary precautions against the pandemic

ACTIVITIES

- Vaccine registration
- Posters showing steps on vaccine registration
- Distribution of pamphlets
- Brochures regarding information about medicines and other precautions to be taken
- Pamphlet distribution, based on vaccine registration.
- Contact stakeholders

The activities started on 6 July 2021 as online mode. Several activities were planned and executed by the members of the group by engaging in conversation with various stakeholders. The group members collectively engaged in the collection of information regarding the Panchayat. They contacted various stakeholders and discussed the current situation of the area. Vaccine registration was the major activity focused by the group. The members created pamphlets and awareness brochures for helping the public for vaccine registration. The pamphlet includes the steps in vaccine registration and it was distributed among the ward member's and Asha workers. Brochures regarding medical precautions were also created and distributed. Finally, the group members collectively organized a community program in the form of a webinar through an online platform.

PAMPHLET MAKING

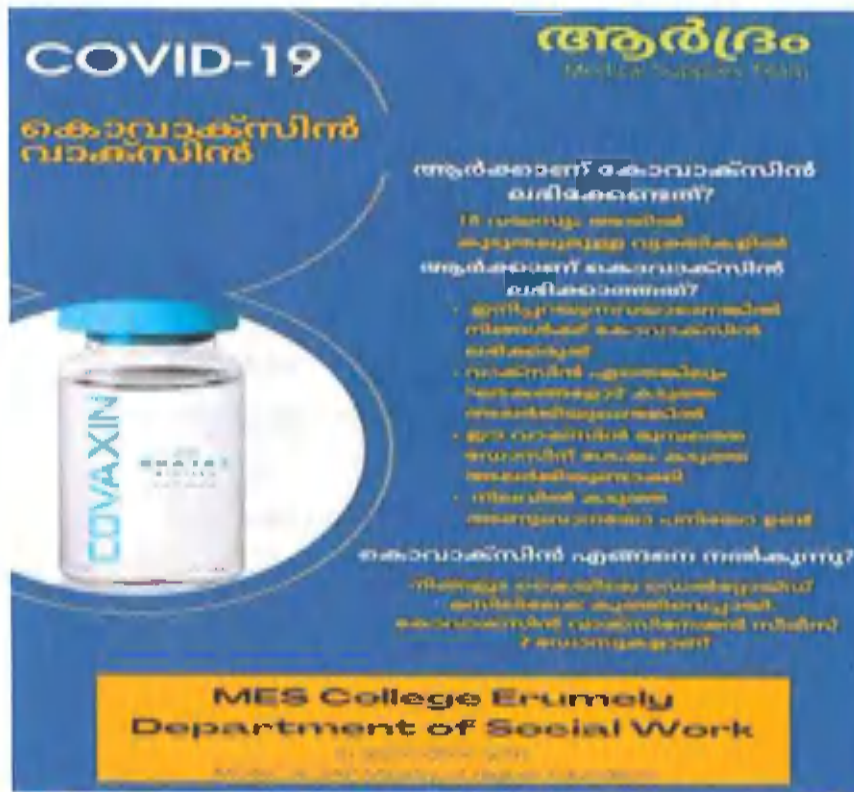

As part of a Community intervention program conducted at Vellavoor Grama Panchayat in association with MGNCRE SAP Ministry of education, government of India, the Social Work Trainees from medical supplies team "AARDAM". "Getting your immunisation even after you have had Covid, it's an amazing boost to your immune system and it might help to continue to protect yourself and people around you and potentially for a longer period of time than your natural immunity would have provided without the extra vaccine doses" Yes covid vaccination is very important to our life it is help to immune our body system. But we have a very doubtful think is how to register the vaccination? What is the process? In the community intervention program we decided to help people to register the covid portal. It is a simple process and we think that it may help at least one person in the vellavoor panchayat.

The first program is to make a pamphlet topic based on "How to register in covid portal " We think it is very helpful to people to register in covid vaccine. It is a simple step and explains the process very clearly. Then share the pamplet in Asha workers through vellavoor panchayat. We make the pamphlet and distribute through social media and circulate to ward members, asha workers etc. The vaccine registration makes it easier for people to understand and makes the registration simple. We think it makes the people get clear and understand how to register. Now vaccination is important in life and it make clear.

AWARENESS POSTER

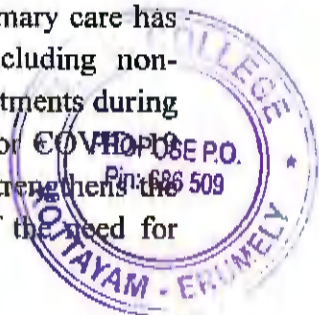

The team also made an awareness poster for the public about the covaxin vaccine. It was made to inform the people about who can take these vaccines, who cannot, and its side effects. People are having a lot of doubts and misconceptions regarding the vaccines and its effects. So we think to a certain extent this will be helpful to some people to know about the vaccine.

COMMUNITY ENGAGEMENT PROGRAM

As part of Community intervention program conducted at Vellavoor Grama Panchayat in association with MGNCRE SAP Ministry of education, government of India, the Social Work Trainees from medical supplies team "AARDAM" planned to organize an awareness session in the form of a webinar on the topic 'primary care of covid patients'. The session is conducted by Ampili Roopesh, Nursing Officer (Hospital infection control nurse), General Hospital Adoor on Sunday 25 July 2021, at 6 PM.

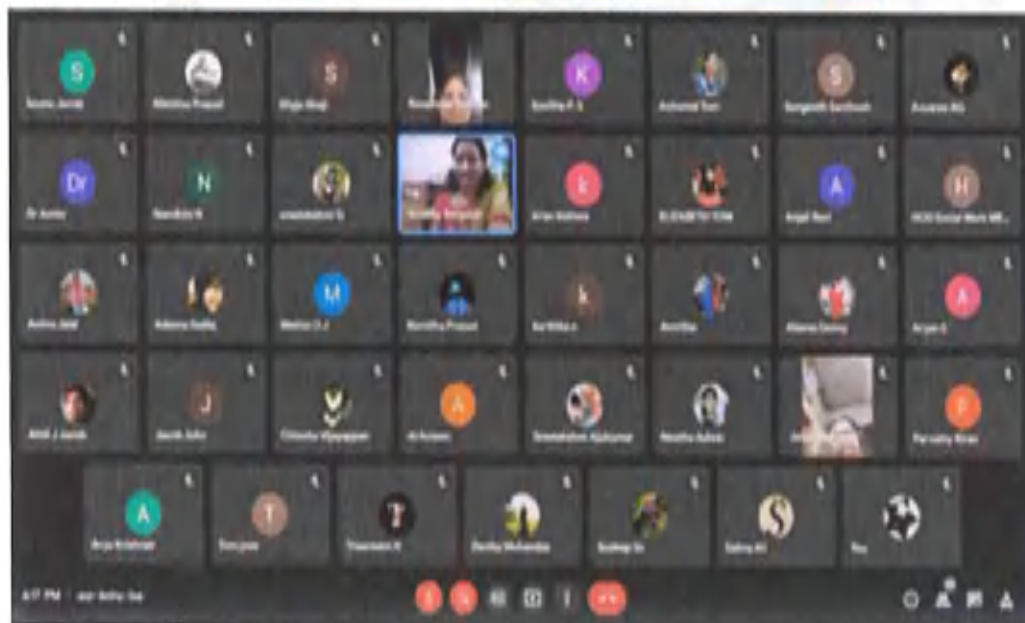

Primary care can play a significant role in the COVID-19 response by differentiating patients with symptoms, making an early diagnosis, helping vulnerable people cope with their anxiety about the virus, and reducing the demand for hospital services. The role of primary care has been increasingly important as cities imposed strict control measures including non-pharmaceutical interventions and as large hospitals closed their outpatient departments during periods of increased transmission. There is an increasing role of home care for COVID-19 cases within communities supported by a strong primary care system, which strengthens the trust between health-care workers and communities. On the identification of the need for

primary care during the pandemic, the family support team had planned an intervention to the public regarding their concerns.

The webinar was scheduled at 6pm, on google meet. The programme was inaugurated by Jalaja Mohan, (Chairperson, Health and Education Standing Committee), presidential address by Rosamma (Chairperson, Development Standing Committee). The session was taken by Ampili Roopesh, Nursing Officer (Hospital infection control nurse), General Hospital Adoor.

The session took one hour more. Informative and interesting to listen to her session. The session was conducted on an online platform in google meet.

INTRODUCTION

Department of Social Work, MES College Erumely in association with MGNCRE SAP Ministry of Education Government of India conducted a Community Engagement Program from 06/ July/ 2021 to 25/July/2021. Five teams participated in the program, they are; Hospital management, Non- Hospital Management, Family support team, Medical supplies team and Psycho social support team. All the 5 teams worked within the premises of Vellavoor Grama Panchayat.

The primary goal of this team is to provide mental support to the common people and to make them aware about post & pre Covid care related to mental as well as physical health. The team employed various methods to reach out the concept of the theme to the particular target group members, our target group members are the natives of Vellavoor Grama Panchayat.

OBJECTIVES

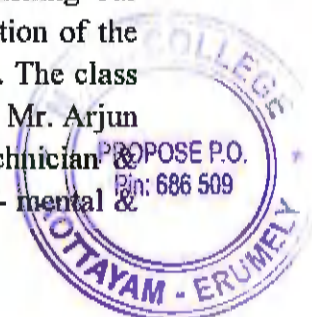

- Provide mental health support to the people of Vellavoor Grama Panchayat.
- Aware them about pre & post Covid care by boosting out the physical as well as mental health.
- Enquire the details of Covid Patients both having Covid positive and negative people/ their family.
- To find Counsellors contact details to provide further intervention.
- Adopt various methods to reach out to the target population.
- Provide Counselling sessions to the people who are mentally weak and refer them for further intervention.

ACTIVITIES

On the first day of the program we prepared a brochure with the program theme and contact details in it. The brochure was circulated through various social media platforms. Also informed about the program aim and particular details to the authority members of our target population (Vellavoor Grama Panchayat) and took the primary details of Covid positive patients and recently Covid negative people. Communicated with each of the members through telephone and enquired them about their present health condition.

We chose 2 Counsellors for providing special intervention to the needy people. Provided further counselling for a patient who lost her husband and old father due to Covid 19 disease. She is suffering from serious mental trauma. Also another woman who lost her husband, her daughter preferred for counselling and we referred her also. The rest of the people are in a moderate situation. We created an awareness video with the participation of the camp members and published it through social media platforms. The reason for adding their own voice is to increase the quality of the video and enlighten the people about mental health in relation to the Covid pandemic.

We also created an awareness poster by denoting important points related to mental health and physical health during Covid period. At last we created another video for publishing our webinar and circulated it to all the social media and shared maximum for promotion of the class. We conducted our webinar through 'Google meet' on 25/July/2021, Sunday. The class started at 11:00am and Mr. Binod Chattookkulam inaugurated the webinar session. Mr. Arjun G M, (MD of Expectation Walkers NGO) & Ms. Sneha Mathew (Anastasia technician & medical coding student) took the sessions. The topic of the webinar was "Survival- mental &

physical health care during the Covid-19".The session was divided into 2; mental health and physical health. Mental health carried out by Arjun G M sir & Physical health by Sneha Mathew madam. Both of them handled the class in an interesting way and the audience enjoyed it well, because so many good responses and good feedback came.

16.MASK SELLING CAMPAIGN

The Entrepreneurship Development Club (ED Club) decided to sell the face masks through the Department of Business Administration. The aim of the initiative was to make the students learn about the practical basics of selling in Business. Members of ED Club and BBA students acted as the salesmen and sold the masks to students, teachers and administration staff in MES College Erumely. The entrance area near the principal's office was chosen as the selling point for face masks. The face masks were made of cloth and were stitched by the members of the ED Club. The price of each mask was Rs.15.

Mr. Maheen M.N, the Principal, inaugurated the ceremony in the college campus on 21 January 2021. Mrs. Anumol Joseph delivered a presidential address explaining the practicalities of Business and this initiative will help the BBA students to learn selling basics in Business. The first sale was made to Mrs.Sindhu P.M (Office Assistant) by Mr.Maheen M.N. The students of other streams, teachers and administration staff brought the face mask
