↗ Moodle administration and course management

· User Creation /Upload Users

· Creating Categories and Courses/Upload Courses

· Enroll users to the Course

· Question Bank Preparation

↗ Managing classes with Moodle site

· Introduction to different activities in Moodle

↗ Virtual Programming Lab in Moodle

Prof. (Dr.) ANIL KUMAR S.
PRINCIPAL
MES COLLEGE ERUMELY

DETAILED REPORT:

DAY 1:

The Resource Person introduced the Moodle Learning Course , its importance in Academics especially in today's Digital Learning and Teaching .Difference between website created as Trial Moodle Cloud and Gnomio. All faculties created their own Moodle cloud website and got familiar with the functionalities and dashboard.

DAY 2:

The participants got trained with the creation of courses, and categories in the created Moodle account

And in the Hands-on session, all the participants got familiar with Site Administration. Day 2 session help all the participants to create and manage their courses with all the functionalities like General, Description, Course Format, Appearance, Files and Uploads, Completion Tracking, Role Management etc. The importance of creating various categories and how it helps in managing courses easier for various batches.

DAY 3:

The participants got trained with Adding Users to the course

In Hands -on session through Administration panel, created Users, got familiar with various Menus under Users, from Account sub menu Uploading of bulk users. Individual users can be added and updated. 10 Dummy users were created and tested in the personal Moodle account created.

DAY 4:

The participants got trained with Participant enrolling.

In Hands -on session through Administration panel, select Courses and Course Administration, Participants can be enrolled and assign various roles to them. How filters can be applied to Participants etc.

DAY 5:

The Participants got trained with addition of topics to the Courses of the Account created.

Adding discussions to our Moodle site, how to add assignments, how to value the assignments are handled. Hands-on session was done for the same after creating dummy assignments and evaluated.

DAY 6:

The Participants got trained form both teachers and students' point of view. Got familiarized with Big blue Button, File Uploading, URL uploading, Attendance management, Question Bank preparation etc.

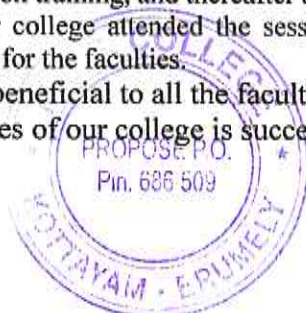

The faculties handling Lab sessions got trained in Virtual Programming.

Each Session has hands on training, and thereafter assignments.

All the faculties of our college attended the sessions and successfully submitted the assignments. Certificates were issued for the faculties.

The FTP found to be beneficial to all the faculties.

All the first-year classes of our college is successfully using the Moodle Platform as LMS.
