Gandhi Global Solar Yathra

Report Of Solar Lamp Assembling Program

Gandhi Global Solar Yathra is planned by IIT Bombay to promote self-sufficiency in energy for sustainability. This yathra mainly aims to spreading the message of non-violence towards the environment and bring awareness on the severity of climate change and lack of energy access to billions.

Mahatma Gandhi believed that "nature can satisfy each one's need but not greed". It is clear that only science and technology development will not be sufficient for sustainable existence on earth. In this context we pay gratitude and adopt the Gandhian ideologies of nonviolence and respect towards all, while celebrating 150th birth anniversary year of Mahatma Gandhi.

Increasing demand and usage of energy is causing catastrophic climate change. Atmospheric CO₂ concentration has increased substantially due to the increased use of fossil fuels owing to energy demand pressures, which causes global warming. To protect our environment there is a need to adopt 100% renewable energy. Solar energy is the best solution. With the vision to promote the use of solar energy, IIT Bombay in association with the **Unnath Bharath Abhiyan** has organized a workshop to train students and sensitize them towards solar energy on October 2nd 2018, commemorating the 150th birth anniversary of Mahatma Gandhi, who epitomized the cause of nonviolence. This year around 1 million students participated the hands-on training on solar study lamp assembly, around the globe to mark the occasion.

This year MES College Erumely was a partner of **Gandhi Global Solar Yathra**. As the part of this yathra, IIT Bombay gave online training for the staff members of the Electronics Department. The grand ceremony of training session for the students was inaugurated by Adv. Sebastian Kulathumkal, District Panchyath President, Kottayam and was presided over by Jb. P. H. Najeeb, Chairman, MES College, Erumely on October 19th 2019. Our principal Mr. Maheen M. N. delivered a brief description about U.B.A. project. The felicitations were given by Ms. Magy Joseph (Member, District Panchyath, Kottayam), K. P. Abdul Kareem (Member, Grama Panchyath, Erumely), Ms. Jisha C. K. (H.O.D., Department of Electronics) and Mr. Jais

John. 125 student solar ambassadors assembled their solar study lamps with the help of these staff trainers in this event. The program concluded with a pledge of non-violence towards the environment. According to the student participants, the workshop was a great and wonderful experience.
