Sub: Request for organizing a pavilion during technical fest.

Sir,

This is to state that the department of electronics, of our College conducts 'VIRTUOSO' a technical fest every year. This fest aims to generate awareness about the day to day developments in the field of electronics among the general public and the student community. This year we are planning to conduct project exhibitions, paper presentations and a technical quiz competition before the middle of February. We are privileged if you organize an ISRO pavilion as a part of our expo.

In our college we have nearly 1200 students and there are more than 15 schools and 6 colleges near to our college. As the college is situated in a rural area and the people will not have a chance to view this type of exposure, we expect a viewership of around 7000 visitors from nearby schools and public.

So we request you to take necessary steps to arrange a pavilion for us. We hope it is a major attraction in the fest.

We are grateful to you if you accept our request.
