

MES COLLEGE ERUMELY

Internal Quality Assurance Cell (IQAC)

Organizes A Workshop on

'Outcome Based Education' NAAC – Assessment & Accreditation Strategies

□ About the FDP

In the era of globalization, traditional education system is losing its relevance. More skills are required to work with very fast developing technology. The educational institutions should produce graduates to cope with technological development. Thus to overcome the requirement, it is mandatory to shift from traditional education system to Outcome Based Education (OBE), which includes Program Outcomes (PO), Program Specific Outcomes (PSO), and Course Outcomes (CO). The aim of accreditation process is to bring out the best in students by measuring their activities right from the time of joining the course to completion. The measurement of outcome continues even after the student leaves the college to ensure that the declared Program Outcomes have been effectively imparted to the students.

The program 'Outcome Based Education' NAAC– Assessment & Accreditation Strategies was organized under Paramarsh scheme in association with MES College Marampally.

The FDP is focused on making the faculty empowered for an outcome – based education with new approaches to convert the project to products and thus bring out the best in students. The FDP - "Outcome Based Education -NAAC Assessment and Accreditation Strategies" will be presented by eminent and experienced Resource Persons from Kerala State Higher Education Council.

The official inauguration of the program got started at 9:30 am , 5th March 2021. The Programme schedule is attached.
